

Shresth Jaiswal

BHOPAL | (+91) 8470980674 | jaishresth143@gmail.com | www.linkedin.com/in/shresth-jaiswal

Motivated Web Development professional skilled in Node.js, Express, MongoDB (Mongoose), and EJS. Proficient in DSA using Java, with a focus on building scalable and efficient full-stack web applications.

EDUCATION

B.TECH in Computer Science and Engineering | VIT Bhopal University
(2023-PRESENT) CGPA: 8.33

INTERMEDIATE | BHAVAN'S KDKVM School
(2022- 2023)
Percentage:82%

HIGH SCHOOL | Bhavan's KDKVM
(2020-2021)
Percentage:98.6%

PROJECTS

Wanderlust | MERN Stack (MongoDB, Express, React, Node.js), HTML, CSS, JavaScript

- Developed a full-stack web application inspired by Airbnb, enabling users to list, browse, and book stays with authentication and CRUD operations.
- Implemented RESTful APIs using Node.js and Express, and managed data persistence with MongoDB (Mongoose).
- Integrated user authentication, authorization, and session management for secure access.
- Designed a responsive front-end with React, styled using CSS for modern UI and seamless navigation.
- Deployed the app on Vercel with a connected MongoDB Atlas database for cloud-based functionality.
- Code: [GitHub](#) | Live Demo: wanderlust.vercel.app

Simon Says Game | HTML, CSS, JavaScript

- Developed an interactive browser-based "Simon Says" memory game to enhance front-end development skills.
 - Implemented game logic using JavaScript to handle sequence generation, user input tracking, and score management.
 - Focused on DOM manipulation and event handling for real-time user interactions.
 - Code: [GitHub](#)
-

SKILLS

- Programming Languages: Java, C++,HTML, CSS, JavaScript, React
- Backend Technologies: Node.js, Express.js, RESTful APIs, MERN Stack
- Databases & Cloud: MySQL, MongoDB, Database Optimization, Microsoft Azure, Cloud Deployment
- Tools & Frameworks: Git, React.js, Flutter, Excel
